SUMMARY

Operations-focused product manager with experience building scalable, multi-channel inventory and fulfillment platforms that enhance supply chain visibility and replenishment accuracy. Skilled in developing AI-enabled workflows to automate reporting and support operational decision-making.

CORE SKILLS

Product Strategy • AI Product Management • LLM Applications • APIs • Forecasting Systems • Agile Delivery • Roadmap Strategy • Operational Automation

TECHNICAL TOOLS

Python • SQL • Power BI • Databricks • Streamlit • OpenAI APIs • Azure • SQLite • Jira • Confluence

EXPERIENCE

LITET

Technical Product & Analytics Lead | 2023 - Present

- Developed a multi-warehouse inventory forecasting platform that converted bundle sales into single-unit demand signals, increasing inventory rotation from 1x to 4x and enabling proactive replenishment planning.
- Created a centralized inventory management system integrating local warehouses, Amazon FBA, AWD, and distributor consignments, eliminating fragmented workflows and improving inventory consistency.
- Automated purchase order planning and replenishment by incorporating SKU-level reorder points, vendor lead times, and MOQ optimization, enhancing purchasing accuracy across multiple fulfillment channels.
- Built AI-powered analytics agents using OpenAI APIs to automate sales reporting and PPC bid analysis, reducing manual effort by 80% and enabling daily operational performance monitoring.

INDEPENDENT AI & PRODUCT CONSULTING

AI Product Consultant | 2026 - Present

- Developed a retrieval-augmented generation (RAG) knowledge assistant consolidating multiple technical catalogs and documentation, reducing search time from 20 to 5 minutes and enabling 90% self-service for sales and product teams.
- Designed an AI-assisted workflow to identify competitor product equivalents, cutting interchange analysis time from 20 to 5 minutes and decreasing reliance on senior product managers through reusable mapping logic.

EMERSON ELECTRIC

Product Manager — Analytics & API Platforms | December 2016 - February 2022

- Synthesized customer interviews into scalable platform requirements, reducing custom telemetry requests to 1% and improving roadmap alignment for 80% customer coverage.
- Collaborated with executives and engineering to prioritize analytics and API roadmap features, enhancing alignment between customer needs and product development.

LUGO HERMANOS

Branch Manager & Product Manager (Linear Motion) | January 2011 - January 2014

- Established and scaled a new industrial sales branch, building a 12-person team and integrating sales, operations, warehouse, and administrative functions to achieve profitability within 12 months and exceed

revenue targets by 15%.

- Coordinated pricing, forecasting, and supplier alignment for over 1,000 SKUs in industrial motion product lines, enhancing product availability and technical support to drive growth in industrial automation offerings.

EDUCATION

FLORIDA INTERNATIONAL UNIVERSITY

Master of Business Administration (MBA) | 2018

FLORIDA INTERNATIONAL UNIVERSITY

Bachelor of Science (BS) in Mechanical Engineering | 2010
